- A Wilson Heater -

Will Save 40 Per Cent. Of Your Fuel Bill -

The celebrated Hot-Blast Down-Draft creates perfect combustion, the gases and fumes (40 per cent. of the heating power of wood), ordinarily escaping unburned up the chimney in other stoves, are all consumed and turned into to heat in the WILSON. The Wilson is the only heater in the world, which actually burns all of the fuel put into it. The WILSON is air-tight, heat can be regulated to any degree, and will hold a fire for 36 hours. What you save on fuel will pay for a WILSON HEATER in one season. Burns Wood

PROBERS' REPORT

In the United States district court. They then went before Juige Grosscup in the United States circuit court of appeals and made application for an appeal, a writ of error and supersedess. The Standard attorneys contended that the supersedess should be granted upon a bond no larger than sufficient to cover the costs. It was claimed by the government, however, that the bend should be fixed at \$29, 24,0000, the amount of the fine im-
